- ❖ HTML, CSS, JavaScript, React, Bootstrap, Tailwind
- ❖ MySQL, Git & GitHub

EDUCATION

- ❖ M.Sc. | Maharashtra Institute of Information Technology Beed *CGPA: 8.4*
- ❖ B.Sc. | Maharashtra Institute of Information Technology Beed *CGPA: 7.8*

CERTIFICATION

- ❖ Certified Java Developer course from TheKiranAcademy

ACADEMIC PROJECTS

- ❖ Project Title | Book Store Management

Technologies Used – Java, MySQL, Spring, Spring Boot, JPA, Devtools, HTML, Thymleaf.

In this project, I developed REST API using Spring Boot. Entities involved were Books. Perform multiple CURD operations like Create, Update, Read, Delete on Books. User can Create a book, Save it. Later user can Update or Delete book. Also, User can add the book to My Books also.

- ❖ Project Title | Banky

Technologies Used – Java, MySQL, JDBC.

Banky is a simulation of a Basic Banking System that allows Users to Create Accounts, Login, Deposit and Withdraw funds, and Transfer funds between Accounts. This project provides an opportunity to explore Fundamental Concepts of Object-Oriented Programming, Data Persistence using Databases, and Basic Transaction Handling.

HOBBIES

- Community Involvement
- Travel
- Listening Music
